## LILIUM REGALE

This marvelous Lily from Western China is one of the most beautiful of a large and very beautiful family of garden flowers. Unlike many of the other very fine sorts, it is exceedingly easy to grow, blooming from very small bulbs and increasing rapidly in size and strength from year to year. It grows 3 to 5 feet high, and blooms outdoors in July. It is perfectly hardy and flourishes under widely varying conditions. The large, trumpet-shaped, delicately scented flowers are ivory white, shaded mauve or purple pink on the outside, tinged with a canary yellow glow suffusing the center of the flower. It is also excellent for forcing.

LARGE BULBS—40c each; \$3.50 for 10; \$30.00 per 100.

## LILIUM CANDIDUM

This is, undoubtedly, the best known and one of the loveliest Lilies. Growing from 3 to 5 feet tall, it bears large heads of white flowers, lit in the center with brilliant golden anthers. They are deliciously fragrant. Its cultivation is simple. Choose a rich, but not recently manured spot in full sunlight and plant the bulbs as early as possible—August or September. Set them barely under ground, say two inches deep, and thereafter leave them strictly alone. The Madonna Lily does not like to be moved after it is once established, and if undisturbed, will increase abundantly from year to year.

LARGE BULBS—25c each; \$2.00 for 10; \$18.00 per 100.
EXTRA LARGE BULBS—35c each; \$3.00 for 10; \$25.00 per 100.

LILIUM REGALE
